- HTML5
- CSS3

Frontend

- React.js
- Vite
- Tailwind CSS
- Framer Motion
- React Router
- React Icons
- React Scroll

Tools & Technologies

- Git
- GitHub
- Vercel
- EmailJS
- npm
- Visual Studio Code

Other Skills

- Responsive Web Design
- Component-Based Architecture
- API Integration
- UI Implementation
- Cross-Browser Compatibility
- Performance Optimization
- Debugging & Troubleshooting

PROJECTS

Personal Portfolio Website

Technologies: React, Vite, Tailwind CSS, JavaScript, Framer Motion, EmailJS, GitHub, Vercel

- Designed and developed a fully responsive personal portfolio to showcase projects, technical skills, and professional background.
- Implemented a functional contact form using EmailJS for direct communication.
- Created reusable React components to improve scalability and maintainability.
- Deployed the application on Vercel with source code managed through GitHub.

Xora SaaS Landing Page

Technologies: React, Vite, Tailwind CSS, JavaScript, Framer Motion, React Icons, React Scroll

- Developed a modern, responsive SaaS landing page featuring reusable components and engaging animations.
 - Built sections including Hero, Features, Pricing, FAQ, Testimonials, and Contact.
 - Integrated smooth scrolling, interactive UI elements, and responsive layouts for an improved user experience.
 - Optimized the application for deployment using GitHub and Vercel.
-

Construction Landing Page

Technologies: React, Vite, Tailwind CSS, JavaScript

- Designed and developed a responsive construction company landing page with a clean and modern interface.
 - Built reusable UI components while ensuring responsiveness across desktop, tablet, and mobile devices.
 - Focused on performance, accessibility, and intuitive navigation.
-

PROFESSIONAL EXPERIENCE

Freelance

Xora SaaS Landing Page

July 2026

- Developed a fully responsive SaaS landing page using React, Vite, JavaScript, and Tailwind CSS, ensuring a seamless experience across desktop, tablet, and mobile devices.
- Built reusable React components to create a scalable and maintainable codebase while implementing modern UI/UX best practices.
- Integrated interactive features including smooth scrolling, animated FAQ sections with Framer Motion, and a functional contact form using EmailJS.
- Managed the complete development workflow, including version control with Git/GitHub and deployment to Vercel, while troubleshooting and resolving compatibility and deployment issues.

Freelance

VastuSpaze Landing Page

July 2026

- Designed and developed a responsive real estate and construction landing page using React, Vite, JavaScript, and Tailwind CSS, delivering a modern and engaging user experience.
- Built reusable React components and implemented responsive layouts to ensure optimal performance across desktop, tablet, and mobile devices.
- Created visually appealing sections, intuitive navigation, and clean UI components while following modern frontend development best practices.
- Managed the complete development lifecycle, including version control with Git and GitHub, debugging, testing, and deployment to Vercel.

EDUCATION

Bachelor of Science (B.Sc.) in Human Anatomy

University of Nigeria, Nsukka
